Notes: From 4% sample of National Student Loan Data System.

For about 80% of borrowers, the state is where the borrower currently resides as reported by the borrower's loan servicer.

For about 16% of borrowers, the state is where the borrower resided when the borrower last applied for a loan.

For the 4% of borrowers where the residence of the borrower is missing, we used the state of the most recent institution the borrower attended.

Totals may not equal due to rounding.
