

## MINNESOTA DRUG CONTROL UPDATE

*This report reflects significant trends, data, and major issues relating to drugs in the State of Minnesota.*

### Minnesota At-a-Glance:

- Approximately 6.97 percent of Minnesota residents reported past-month use of illicit drugs; the national average was 8.82 percent.  
*Source: National Survey on Drug Use and Health (NSDUH) 2009-2010.*
- The number of drug-induced deaths in Minnesota was below the national average.
- Marijuana is the most commonly cited drug among primary drug treatment admissions in Minnesota.
- In 2011, 19 percent of treatment admissions were for non-heroin opiates (including prescription drugs) and 18 percent of treatment admissions were for stimulants.
- In 2011, primary drug treatment admissions in Minnesota for heroin surpassed admissions for cocaine.

## Drug Use Trends in Minnesota

**Drug Use in Minnesota:** The National Survey on Drug Use and Health (NSDUH) provides national and state-level data on the use of tobacco, alcohol, illicit drugs (including non-medical use of prescription drugs), and mental health in the United States. In the most recent survey, 6.97 percent of Minnesota residents reported using illicit drugs in the past month. The national average was 8.82 percent. Additionally, 2.84 percent of Minnesota residents reported using an illicit drug other than marijuana in the past month (the national average was 3.6 percent).

**Drug-Induced Deaths:** As a direct consequence of drug use, 441 persons died in Minnesota in 2009. This is compared to the number of persons in Minnesota who died from motor vehicle accidents (490) and firearms (336) in the same year. Minnesota drug-induced deaths (8.4 per 100,000 population) were lower than the national rate (12.8 per 100,000).

## Substance Abuse Treatment Admissions Data

### Minnesota Primary Treatment Admissions:

The graph on the right depicts substance abuse primary treatment admissions in Minnesota from 1992 to 2011. The data show marijuana is the most commonly cited drug among primary drug treatment admissions in the state.

# Prescription Drug Abuse

## ONDCP's Efforts to Combat Prescription Drug Abuse

Prescription drug abuse is the fastest-growing drug problem in the Nation. The Administration's Prescription Drug Abuse Prevention Plan entitled **"Epidemic: Responding to America's Prescription Drug Abuse Crisis,"** provides a national framework for reducing prescription drug diversion and abuse by supporting the expansion of state-based prescription drug monitoring programs; recommending secure, more convenient, and environmentally responsible disposal methods to remove expired, unused, or unneeded medications from the home; supporting education for patients and healthcare providers; and reducing the prevalence of pill mills and doctor shopping through enforcement efforts.

## State-Level Action: Prescription Drug Monitoring Programs (PDMPs)

PDMPs track controlled substances prescribed by authorized practitioners and dispensed by pharmacies. PDMPs serve a number of functions, including assisting in patient care, providing early warning signs of drug epidemics, and detecting drug diversion and insurance fraud. Forty-one states have operational PDMP programs established by state legislation and funded by a combination of state and Federal funds. An additional 9 states and territories have a prescription drug monitoring program authorized, but not yet operational. Adequate resourcing, increasing the number of states with operational PDMPs, and development of state-to-state information-sharing systems would significantly help reduce prescription drug diversion and abuse.

**The Minnesota Prescription Monitoring Program (PMP)** was created as a way to prevent "doctor shopping," generally described as the practice of receiving prescriptions for the same controlled substances from multiple prescribers. Pharmacies licensed and located in Minnesota must report to the PMP all schedule II, III, and IV controlled substance prescriptions that they dispense. This includes prescriptions for those drugs in federal schedule V that are schedule III in Minnesota. All such prescriptions must be reported, including those dispensed for non-Minnesota residents or mailed/shipped out of state.

## State-Level Action: Drug Take-Back Programs

A comprehensive plan to address prescription drug abuse must include proper disposal of unused, unneeded, or expired medications. Providing individuals with a secure and convenient way to dispose of controlled substances will help prevent diversion and abuse of these substances and demonstrate sound environmental stewardship. Federal rulemaking is underway and will further enhance the viability and scope of state and community take-back programs. In the meantime, states are encouraged to work with the DEA to conduct additional take-back events and educate the public about safe and effective drug return and disposal.

## Drugged Driving

### ONDCP Action on Drugged Driving

In 2007, the National Highway Traffic Safety Administration (NHTSA) found that one in eight weekend, nighttime drivers tested positive for illicit drugs. According to recent Fatal Accident Reporting System (FARS) data, one in three motor vehicle fatalities (33 percent) with known drug test results tested positive for drugs in 2009. Recognizing this growing problem, ONDCP is working to raise awareness of the dangers of drugged driving, provide increased training to law enforcement in identifying drugged drivers, and encourage states to consider *Per Se* laws to facilitate effective enforcement and prosecution of those who drive with drugs in their systems.

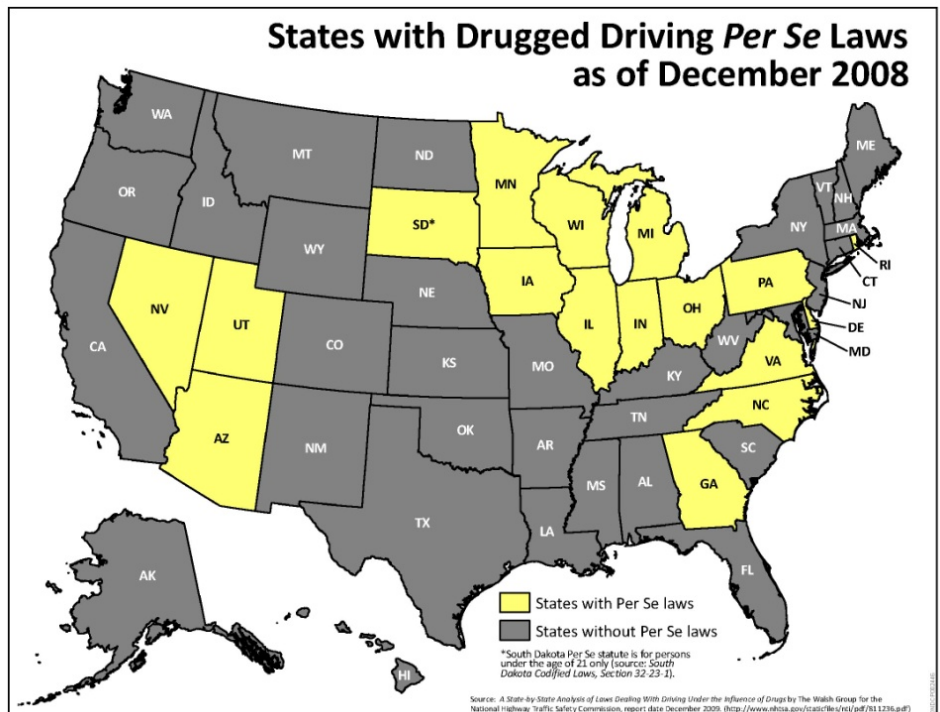

#### *State-Level Action: Enacting Per Se Standards for Impairment*

Although all 50 states have laws against drugged driving, law enforcement often lacks adequate tools to enforce and prosecute drugged driving. ONDCP encourages states to consider *Per Se* standards for impairment that make it illegal to drive a vehicle after taking illegal drugs. This is the same standard used successfully for 12 million commercial drivers in the United States over the past two decades. *Per Se* standards have been adopted in 17 states.

#### **Minnesota has a *Per Se* standard.**

Under Minnesota law (Section 169A.20) establishes Zero Tolerance for scheduled controlled substances other than marijuana or tetrahydrocannabinoids. In Minnesota, it is a crime for any person to drive, operate, or be in physical control of a motor vehicle within the state or upon the ice of any boundary water of the state when the person is under the influence of a controlled substance; is knowingly under the influence of a hazardous substance that affects the nervous system, brain, or muscles so as to substantially impair the person's ability to drive or operate the motor vehicle; or when the person's body contains any amount of a controlled substance listed in schedule I or II other than marijuana or hydrocannabinoids. Proof of a valid prescription for the controlled substance is an affirmative defense for this provision.

## ONDCP Support for Community-Based Prevention

### National Anti-Drug Media Campaign

ONDCP's National Youth Anti-Drug Media Campaign provides consistent and credible messages (including in Native American and Alaska Native communities) to young people about drug use and its consequences. *Above the Influence*, a major component of the Campaign, informs and inspires youth to reject illicit drugs and drinking via a mix of national and local advertising vehicles. The Campaign, in close partnership with local community-based, youth-serving organizations, also conducts teen-targeted *Above the Influence* activities to assist local groups with youth drug prevention work in their respective communities.

### The Drug Free Communities (DFC) Program

Recognizing that local problems require local solutions, Drug Free Communities (DFC) organizations mobilize communities to prevent youth drug use by creating local data-driven strategies to reduce drug use in the community. ONDCP works to foster the growth of new coalitions and support existing coalitions through the DFC grants. In FY 2012, the following Minnesota coalitions received grants from ONDCP:

- Brown County Underage Substance Abuse Coalition (USAC)
- CHAMP
- Chemical Health Coalition of Yellow Medicine County
- County of Wilkin
- Freeborn County Partners in Prevention
- Goodhue County Social Services
- Kandiyohi County ATOD Coalition
- Meeker Mcleod Sibley Community Health Services
- Partnership for Change
- Pierz Area Coalition
- Polk County
- Renville County Public Health Services
- Rice County Chemical Health Coalition
- Safe Communities Coalition
- Steele County Safe and Drug Free Coalition
- Substance Abuse Coalition of Kanabec County (SACK)
- Tonka Cares
- Tri-City Partners for Healthy Youth and Communities (TCP)
- Washington County Chemical Health Action Collaborative
- Working Together-A Coalition for Safe and Healthy Communities

## Federal Grant Awards Available to Reduce Drug Use in the State of Minnesota

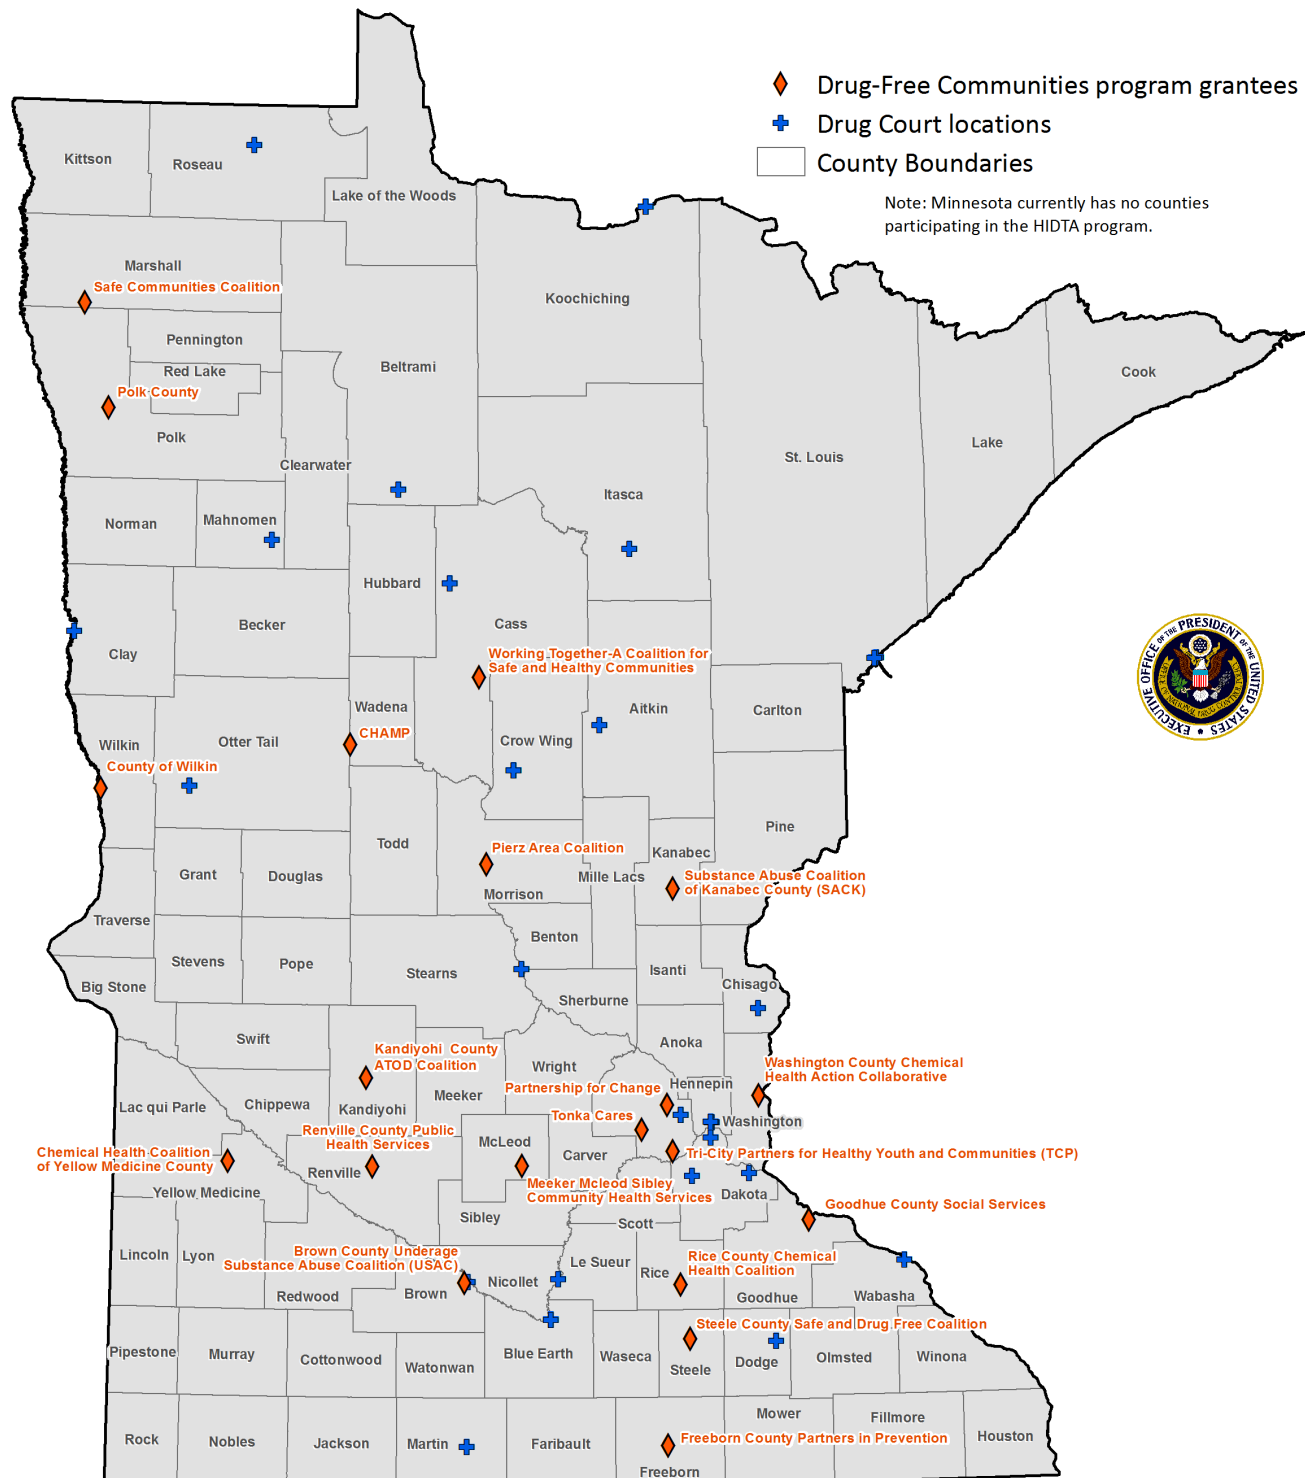

The Federal Government awards competitive grants to help states in their efforts to reduce drug use and its harmful consequences. In FY 2012, direct support was provided to state and local governments, schools, and law enforcement organizations in your state for this purpose. Some Federal grant programs are dedicated to reducing drug use and its harmful consequences while others can be used for reducing drug use or for other purposes. In FY 2012, your State received support under the grant programs shown below.

Federal Grant Awards That Help Reduce the Availability and Misuse Of Drugs In The State of MN	
Department / Office / Program Name	2012
<b>Department of Agriculture</b>	<b>\$ 13,429,140</b>
<b>National Institute of Food and Agriculture</b>	
Cooperative Extension Service	\$ 13,429,140
<b>Department of Defense</b>	<b>\$ 860,000</b>
<b>The Army</b>	
National Guard Challenge Program	\$ 860,000
<b>Department of Education</b>	<b>\$ 12,439,164</b>
<b>Office of Elementary and Secondary Education</b>	
Twenty-First Century Community Learning Centers	\$ 12,439,164
<b>Department of Health and Human Services</b>	<b>\$ 153,750,072</b>
<b>Administration for Children and Families</b>	
Promoting Safe and Stable Families	\$ 3,605,827
Transitional Living for Homeless Youth	\$ 1,575,000
<b>Centers For Medicare and Medicaid Services</b>	
Medical Assistance Program - Grants to States for Medicaid To Treat Substance Abuse	\$ 75,261,356
<b>Indian Health Service</b>	
Urban Indian Health Services	\$ 571,750
<b>National Institutes Of Health</b>	
Alcohol Research Programs	\$ 9,006,182
Drug Abuse and Addiction Research Programs	\$ 31,380,228
Drug Abuse Scientist Development Awards, Research Scientist Development Aw	\$ 199,680
<b>Substance Abuse and Mental Health Services Administration</b>	
Block Grants for Prevention and Treatment of Substance Abuse	\$ 25,316,014
Projects for Assistance in Transition from Homelessness (PATH)	\$ 818,000
Substance Abuse and Mental Health Services Projects of Regional and National Significance	\$ 5,091,035
<b>Health Resources and Services Administration</b>	
Healthy Start Initiative	\$ 925,000
<b>Department of Housing and Urban Development</b>	<b>\$ 26,625,206</b>
<b>Community Planning and Development</b>	
Emergency Shelter Grants Program	\$ 698,437
Emergency Solutions Grant Program	\$ 3,844,155
Shelter Plus Care	\$ 6,908,447
Supportive Housing Program	\$ 15,174,167
<b>Department Of Justice</b>	<b>\$ 6,849,653</b>
<b>Office of Justice Programs</b>	
Drug Court Discretionary Grant Program	\$ 349,163
Edward Byrne Memorial Justice Assistance Grant Program	\$ 4,013,158
Edward Byrne Memorial State and Local Law Enforcement Assistance Discretionary Grants Program	\$ 162,169
Juvenile Accountability Block Grants	\$ 380,903
Juvenile Justice and Delinquency Prevention Allocation to States	\$ 455,587
Juvenile Mentoring Program	\$ 239,978
Residential Substance Abuse Treatment for State Prisoners	\$ 81,299
Tribal Court Assistance Program	\$ 730,135
Tribal Youth Program	\$ 437,261
<b>Department of Labor</b>	<b>\$ 2,995,686</b>
<b>Employment and Training Administration</b>	

<b>Federal Grant Awards That Help Reduce the Availability and Misuse Of Drugs In The State of MN</b>	
<b>Department / Office / Program Name</b>	<b>2012</b>
Reintegration of Ex-Offenders	\$ 2,995,686
<b>Department of Transportation</b>	<b>\$ 9,104,160</b>
<b>National Highway Traffic Safety Administration</b>	
Alcohol Impaired Driving Countermeasures Incentive Grants I	\$ 2,510,642
Minimum Penalties for Repeat Offenders for Driving While Intoxicated	\$ 6,593,518
<b>Department of Veteran's Affairs</b>	<b>\$ 601,497</b>
<b>Veterans Health Administration</b>	
VA Homeless Providers Grant and Per Diem Program	\$ 601,497
<b>Executive Office of The President</b>	<b>\$ 2,571,513</b>
<b>Office of National Drug Control Policy</b>	
Drug-Free Communities Support Program Grants	\$ 2,571,513
<b>Grand Total</b>	<b>\$ 229,226,091</b>
