

NORTH DAKOTA DRUG CONTROL UPDATE

This report reflects significant trends, data, and major issues relating to drugs in the State of North Dakota.

North Dakota-At-A-Glance

- An estimated 5.30 percent of North Dakota residents were past-month users of illicit drugs; the national average was 8.82 percent.
Source: National Survey on Drug Use and Health (NSDUH) 2009-2010.
- Drug-induced deaths in North Dakota are less than half the national rate.
- In 2011, two-thirds of North Dakota drug treatment admissions were for marijuana.

Drug Use Trends in North Dakota

Drug Use in North Dakota: The National Survey on Drug Use and Health (NSDUH) provides national and state-level data on the use of tobacco, alcohol, illicit drugs (including non-medical use of prescription drugs) and mental health in the United States. In the most recent Survey, 5.3 percent of North Dakota residents reported using illicit drugs in the past month. The national average was 8.82 percent. Additionally, 2.37 percent of North Dakota residents reported using an illicit drug other than marijuana in the past month (the national average was 3.6 percent).

Drug-Induced Deaths: As a direct consequence of drug use, 28 persons died in North Dakota in 2009. This is compared to the number of persons in North Dakota who died from motor vehicle accidents (131) and firearms (59) in the same year. North Dakota drug-induced deaths (4.3 per 100,000 population) were less than half the national rate (12.8 per 100,000).

Substance Abuse Treatment Admissions Data

North Dakota Primary Treatment Admissions:

The graph on the right depicts substance abuse primary treatment admissions in North Dakota from 1992 to 2011. The data show marijuana is the most commonly cited drug among primary drug treatment admissions in the state.

Prescription Drug Abuse

ONDCP's Efforts to Combat Prescription Drug Abuse

Prescription drug abuse is the fastest-growing drug problem in the Nation. The Administration's Prescription Drug Abuse Prevention Plan entitled "**Epidemic: Responding to America's Prescription Drug Abuse Crisis**," provides a national framework for reducing prescription drug diversion and abuse by supporting the expansion of state-based prescription drug monitoring programs; recommending secure, more convenient, and environmentally responsible disposal methods to remove expired, unused, or unneeded medications from the home; supporting education for patients and healthcare providers; and reducing the prevalence of pill mills and doctor shopping through enforcement efforts.

State-Level Action: Prescription Drug Monitoring Programs (PDMPs)

PDMPs track controlled substances prescribed by authorized practitioners and dispensed by pharmacies. PDMPs serve a number of functions, including assisting in patient care, providing early warning signs of drug epidemics, and detecting drug diversion and insurance fraud. Forty-one states have operational PDMP programs established by state legislation and funded by a combination of state and Federal funds. An additional 9 states and territories have a prescription drug monitoring program authorized, but not yet operational. Adequate resourcing, increasing the number of states with operational PDMPs, and development of state-to-state information-sharing systems would significantly help reduce prescription drug diversion and abuse.

North Dakota's Prescription Drug Monitoring Program was established in 2005 and became operational in 2008. The program, overseen by the state Board of Pharmacy, collects data on all Schedule II, III, IV, and V controlled substances (including Tramadol and Carisoprodol) dispensed in North Dakota for patients residing in the state. Data are collected daily from pharmacies and dispensing practitioners.

State-Level Action: Drug Take-Back Programs

A comprehensive plan to address prescription drug abuse must include proper disposal of unused, unneeded, or expired medications. Providing individuals with a secure and convenient way to dispose of controlled substances will help prevent diversion and abuse of these substances and demonstrate sound environmental stewardship. Federal rulemaking is underway and will further enhance the viability and scope of state and community take-back programs. In the meantime, states are encouraged to work with the DEA to conduct additional take-back events and educate the public about safe and effective drug return and disposal.

Drugged Driving

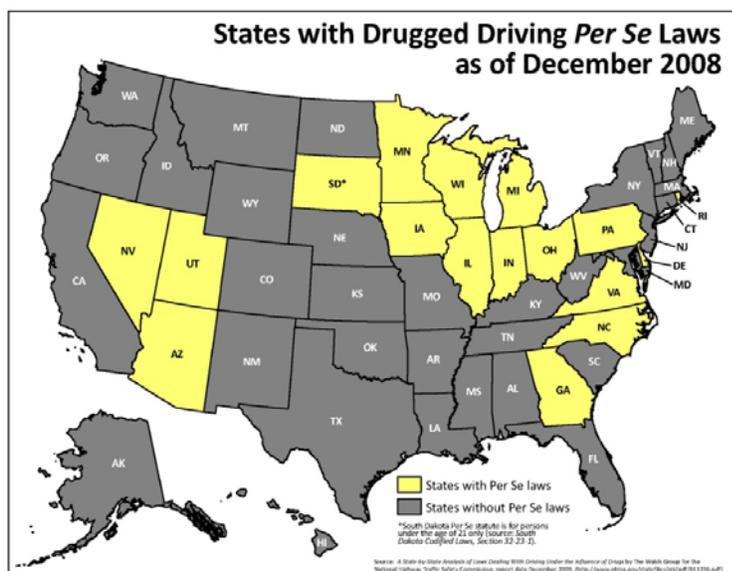

ONDCP Action on Drugged Driving

In 2007, the National Highway Traffic Safety Administration (NHTSA) found that one in eight weekend, nighttime drivers tested positive for illicit drugs. According to recent Fatal Accident Reporting System (FARS) data, one in three motor vehicle fatalities (33 percent) with known drug test results tested positive for drugs in 2009. Recognizing this growing problem, ONDCP is working to raise awareness of the dangers of drugged driving, provide increased training to law enforcement in identifying drugged drivers, and encourage states to consider *Per Se* laws to facilitate effective enforcement and prosecution of those who drive with drugs in their systems.

State-Level Action: Enacting *Per Se* Standards for Impairment

Although all 50 states have laws against drugged driving, law enforcement often lacks adequate tools to enforce and prosecute drugged driving. ONDCP encourages states to consider *Per Se* standards for impairment that make it illegal to drive a vehicle after taking illegal drugs. This is the same standard used successfully for 12 million commercial drivers in the United States over the past two decades. *Per Se* standards have been adopted in 16 states.

North Dakota does not currently have a *Per Se* standard. However, under Section 39-08-01 of North Dakota law, a person may not drive or be in actual physical control of a vehicle on a public roadway if the person “is under the influence of any drug or substance or combination of substances to a degree which renders that person incapable of safely driving.” Legal entitlement to use the drug is not a defense “unless the drug was used only as directed or cautioned by an attending physician or other practitioner who legally prescribed or dispensed the drug to the Defendant.”

ONDCP Support for Community-Based Prevention

The Drug Free Communities (DFC) Program

Recognizing that local problems require local solutions, Drug Free Communities (DFC) organizations mobilize communities to prevent youth drug use by creating local data-driven strategies to reduce drug use in the community. ONDCP works to foster the growth of new coalitions and support existing coalitions through the DFC grants. In FY 2012, the following North Dakota coalitions received grants from ONDCP:

- Community Action Partnership

National Anti-Drug Media Campaign

ONDCP's National Youth Anti-Drug Media Campaign provides consistent and credible messages (including in Native American and Alaska Native communities) to young people about drug use and its consequences. *Above the Influence*, a major component of the Campaign, informs and inspires youth to reject illicit drugs and drinking via a mix of national and local advertising vehicles. The Campaign, in close partnership with local community-based, youth-serving organizations, also conducts teen-targeted *Above the Influence* activities to assist local groups with youth drug prevention work in their respective communities.

ONDCP High Intensity Drug Trafficking Area (HIDTA) County Info

The High Intensity Drug Trafficking Areas (HIDTA) program enhances and coordinates drug control efforts among local, state, and Federal law enforcement agencies. In designated HIDTA counties, the program provides agencies with coordination, equipment, technology, and additional resources to combat drug trafficking and its harmful consequences in critical regions of the United States.

HIDTA Counties in North Dakota

North Dakota (Midwest HIDTA): Burleigh, Cass, Grand Forks, Morton, Ramsey, Richland, Walsh, and Ward counties.

Projects and task forces:

- *DHE-North Dakota Interdiction:* operational support for highway interdiction activities on pre-identified trafficking routes.
- *Metro Area Narcotics Task Force:* targets manufacturing, importation, and distribution organizations operating in Bismarck and other parts of North Dakota.
- *Grand Forks County Task Force:* targets drug trafficking and violent crime.
- *Fargo DEA Task Force:* serves as a focal point of enforcement efforts in southeast North Dakota.
- *Special Assistant United States Attorney:* enhances the resources of North Dakota United States Attorney's Office to aggressively prosecute narcotics trafficking cases at the Federal level, and to cross-designate state prosecutors when appropriate.

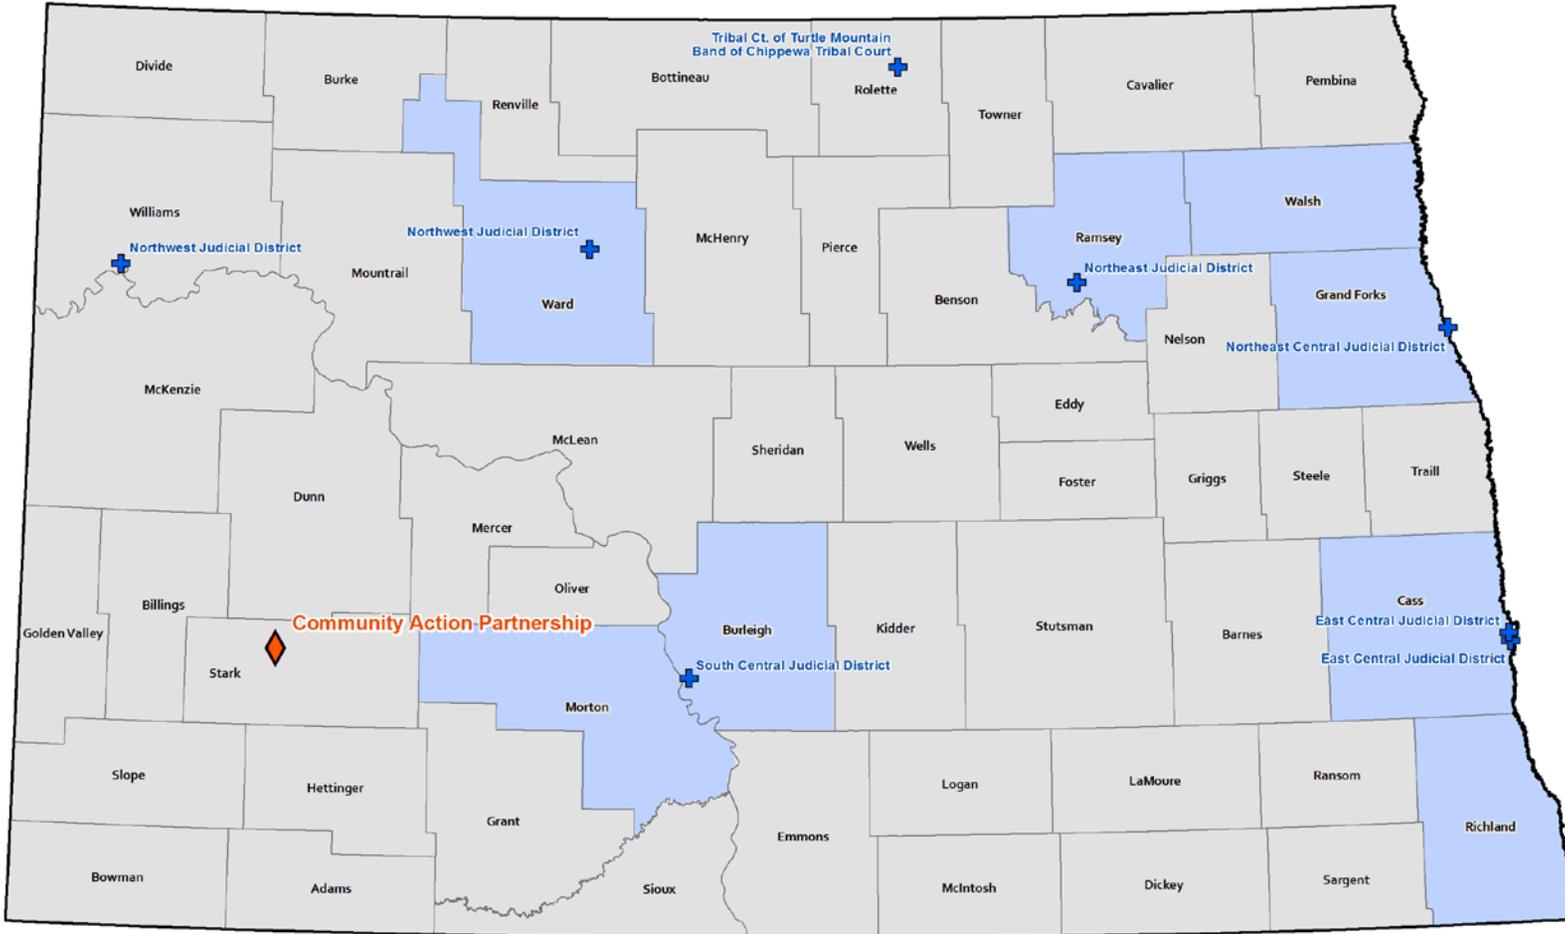

Federal Grant Awards Available to Reduce Drug Use in the State of North Dakota

The Federal Government awards competitive grants to help states in their efforts to reduce drug use and its harmful consequences. In FY 2012, direct support was provided to state and local governments, schools, and law enforcement organizations in your state for this purpose. Some Federal grant programs are dedicated to reducing drug use and its harmful consequences while others can be used for reducing drug use or for other purposes. In FY 2012, your State received support under the grant programs shown below.

Federal Grant Awards That Help Reduce the Availability and Misuse Of Drugs In The State of ND	
Department / Office / Program Name	2012
Department of Agriculture	\$ 5,102,363
National Institute of Food and Agriculture	
Cooperative Extension Service	\$ 5,102,363
Department of Education	\$ 5,643,199
Office of Elementary and Secondary Education	
Twenty-First Century Community Learning Centers	\$ 5,643,199
Department of Health and Human Services	\$ 18,084,553
Administration for Children and Families	
Promoting Safe and Stable Families	\$ 830,547
Transitional Living for Homeless Youth	\$ 399,663
Centers For Medicare and Medicaid Services	
Medical Assistance Program - Grants to States for Medicaid To Treat Substance Abuse	\$ 5,924,380
National Institutes Of Health	
Drug Abuse and Addiction Research Programs	\$ 597,392
Substance Abuse and Mental Health Services Administration	
Block Grants for Prevention and Treatment of Substance Abuse	\$ 5,440,418
Projects for Assistance in Transition from Homelessness (PATH)	\$ 300,000
Substance Abuse and Mental Health Services Projects of Regional and National Significance	\$ 4,592,153
Department of Housing and Urban Development	\$ 2,410,953
Community Planning and Development	
Emergency Shelter Grants Program	\$ 497,005
Emergency Solutions Grant Program	\$ 156,147
Shelter Plus Care	\$ 678,412
Supportive Housing Program	\$ 1,079,389
Department Of Justice	\$ 1,431,613
Office of Justice Programs	
Edward Byrne Memorial Justice Assistance Grant Program	\$ 696,767
Juvenile Accountability Block Grants	\$ 140,827
Juvenile Justice and Delinquency Prevention Allocation to States	\$ 400,000
Second Chance Act Prisoner Reentry Initiative	\$ 194,019
Department of Transportation	\$ 2,338,253
National Highway Traffic Safety Administration	
Alcohol Impaired Driving Countermeasures Incentive Grants I	\$ 2,338,253
Department of Veteran's Affairs	\$ 674,082
Veterans Health Administration	
VA Homeless Providers Grant and Per Diem Program	\$ 674,082
Executive Office of The President	\$ 659,092
Office of National Drug Control Policy	
Drug-Free Communities Support Program Grants	\$ 125,000
High Intensity Drug Trafficking Areas Program	\$ 534,092
Grand Total	\$ 36,344,108
