I am writing as the co-founder of Free Government Information (<http://freegovinfo.info>) to wholeheartedly endorse the National Digital Stewardship Alliance (NDSA) response to the OSTP RFI on public access to digital data resulting from federally funded scientific research (FR Doc No: 2011-28621), dated January 2, 2012 ([http://digitalpreservation.gov/documents/NDSA\\_ResponseToOSTP.pdf](http://digitalpreservation.gov/documents/NDSA_ResponseToOSTP.pdf)).

Best,
