---

I've been informed by the ASMP and the Copyright Alliance to share my thoughts as a creator. I have been fortunate to be a working photographer for over 30 years. I am also fortunate to have the opportunity to work with student photographers and share what I have learned from my years in the industry. Now however because of copyright infringement and piracy of our work we will no longer be able to work in this field. It's critical for the success of all creatives to have their intellectual property protected and I believe the US government can do a better job in this regard.

Thank you for your invitation to address this very serious matter and.

Sincerely  
Scot Hill  
Austin, Tx
