Dear Ms. Espinel,
My cartoon says it all.

As a freelancer without even a syndicate to watch over us, we little guys really could use your help. It is very important to be able to copyright our entire year's worth of work at one time for some easy-to-access protection.

As for the money I've lost ---- who has tr. to tabulate it? I'm too busy looking for work. Thanks so much for acknowledging our concerns and trying to do something about them.

Sincerely,

Deb Milbrath

ps. Please feel free to use this cartoon as you want. Everybody else does.
