*Dear Ms. Espinel,*

*My family has owned a photography business in Daytona Beach Florida since 1943. I can tell you from experience that earning a living from photography is much more difficult today because of the ease with which my clients can copy my work. Why should they order 3 photographs from me when they can buy one and copy it. It is a huge problem. We need strong copyright protection for the art that we create. Thank you, Linda Hamby Ness, Charthe' Photography*
