Subject: Re; Response to pirating goods...
Date: Monday, March 22, 2010 7:14:12 PM

Ms. Victoria Espinel ;

Thank you for addressing the "piracy" of music, videos, books, goods, etc., issue.

Suggestion : In this day of computers and UPC Codes, why wouldn't it be possible to assign a "permanant identifying fingerprint" (via numbers, symbols, alphabetical letters, all sensitive to upper and lower case) to every individual product that could be "tracked" for sale or use ? Revenue or royalties on that tracking system paid (as sold, used, or earned) to the writers, artists, publishers, owners or copyright holders? Thank you - George Tomsco, Raton, NM, performer, songwriter, recording artist.
