Subject: STAY OUT OF MY LIFE!
Date: Monday, March 22, 2010 1:16:58 PM

President Obama and Ms. Espinel,

Per your request for input regarding how my creativity is being effected,
per your obvious ongoing desire to manage every aspect of our lives,
per Harry Fox's email about your need to insert the government into 'assisting'
artists,

I respectfully and strongly request you stay out of my artistic life!

I do NOT want any more infringement or 'transformation' of any part of my
private or creative work affected by your White House. You ask for my input,
here it is.

LEAVE ME ALONE!

Bigger government, more policing, more federal intrusion will not in any way
help me as a writer, author or producer of creative work. Your administration
has quite the opposite effect of inspiring. You are most assuredly attempting
to control and defeat the creative spirit in this country.

Thankfully a large majority will rise above the oppressive hand of this administration.
You were NOT elected to control our lives.
You most certainly cannot control our hearts or creativity.
