135.1 What is the purpose of these procedures?

Cabinet departments and certain agencies submit reports on Federal outlays to assist in monitoring spending and to improve Treasury Department forecasts of the Government’s daily cash operating balances, borrowing requirements, and debt subject to legal limits, including trust and special fund investment activity. Realistic estimates, particularly for the immediate six-month period, enable Treasury to borrow only amounts needed to finance Government activities, thus reducing interest costs.

OMB needs reports on Federal outlays to monitor the deficit/surplus and to assess the reliability of each agency’s financial management system. Reports are also used by Treasury for its monthly review of “Statement of Transactions” reporting, prior to publication of the Monthly Treasury Statement of Receipts and Outlays of the U.S. Government (Monthly Treasury Statement or MTS), and for periodic evaluations of the accuracy of the reports. These plans must be as accurate as possible—an inability to forecast spending with reasonable accuracy can be a weakness in program and financial management. Problems of this nature need the attention of OMB and the agencies alike.

135.2 Who is required to submit a plan?

If your department or agency is listed in exhibit 135A, prepare a monthly outlay plan for the current and budget years as required by OMB and Treasury and submit periodic reports on and revisions to that plan. Coverage of the reports should be identical to the coverage in the annual budget documents and should include outlay information for all appropriations and funds administered by your department or agency.
OMB and/or Treasury may require a forecast of deposit fund activity for specific agencies and will notify you of this requirement.

OMB and Treasury have implemented a web-based system for collecting monthly outlay plan information, which can be found at https://mop.max.gov. The historical database of outlay plan information that results from this effort can improve outlay forecasting abilities government-wide.

The system will preload and display actual outlays reported in the MTS and full fiscal year estimates from the most recent Budget or Mid-Session Review (MSR). Please reconcile any discrepancies between the data in the system and the data you expect with your OMB contact. Agencies should then enter estimates of expected outlays for months where actual outlays are not yet available.

135.3 What are the general reporting requirements?

Agencies must report their updated monthly outlay plans on a quarterly basis. Base estimates on your most realistic estimates of the amount to be spent by month in the period(s) covered by the report. Use the President’s most recent annual Budget or MSR estimates as a base, but update those estimates to reflect subsequent Congressional or administrative actions, including both completed actions and those that are almost certain to be completed. Plans should also reflect the latest economic trends and other expected events on a realistic basis.

Budget and MSR estimates serve as reference points only, not as targeted fiscal year totals. Do not force estimated monthly totals to conform to the Budget or MSR totals if those totals are not consistent with your best, most recent information at the time the forecast is prepared. If realistic estimates yield differences between agency and official estimates, then knowing this difference is critical to Treasury’s general financing requirements and medium and long-term planning. The format for agency reports (exhibit 135B) includes columns for “Budget estimates” (or “MSR estimates”) and “Differences” that will highlight changes from the most recent official estimates.

Between submission dates, you should provide updated plans to OMB and Treasury whenever there are significant changes in agency outlay totals ($500 million or more), large transactions ($50 million or more; see Treasury Financial Manual (TFM), Volume 1, Part 6, Chapter 8500), or patterns (such as those that may be associated with an unanticipated increase in claims for an entitlement program or a change in the timing or amount of upward or downward credit reestimates between budgetary program and non-budgetary financing accounts). You should also cooperate with OMB and Treasury by providing additional details as requested.

You must submit with each outlay plan a brief summary explaining the assumptions used in developing the plan and any unusual or special circumstances affecting the plan. The summary is instrumental in Treasury’s assessment of the reliability of the estimates and must be included with all outlay report submissions. The summary will, for example, enumerate expected congressional actions that will raise or lower estimates, discuss any other events that have caused or are expected to cause significant fluctuations in the normal outlay pattern, and specify whether they have been included or excluded from the plan. Summaries are to be uploaded as attachments in the web-based system. A comment added to the plan in the system can be used in place of the summary in cases where the estimates are exclusively based on historical patterns and not on economic/legislative assumptions.

135.4 What are the reporting requirements for large transactions?

In order to improve Treasury’s ability to manage the Government’s daily cash position and to make more informed financing decisions, all agency financial officers are required to provide advance notice of all large deposits and withdrawals. “Large transaction” refers to a single payment or deposit or a group of payments or deposits of $50 million or more of a similar nature that occur, typically, on one day. You must identify large cash and non-cash payment and deposit transactions. (See TFM, Volume 1, Part 6, Chapter
Large transactions may be recurring, i.e., monthly, quarterly, semi-annual, or annual. Cash transactions result in a decrease or increase in Treasury’s operating cash balance. Non-cash transactions are typically transfers between general fund and trust fund, deposit fund, or financing accounts.

The amount of advance notice varies from two to five business days or more prior to the transaction date, depending on the size of the transaction. CASH TRACK Web (CTW) is currently the predominant mechanism for reporting large transactions to Treasury. Please contact the Cash Forecasting Division (Fiscal Service, Department of the Treasury (202) 874–9790), to set up your account on CTW, for large dollar notification reporting and for further information regarding TFM Chapter 8500. Additionally, projections of all non-recurring transactions in excess of $1 billion that have a high probability of occurrence beyond the five-day window must be sent to Treasury’s Office of the Fiscal Assistant Secretary (OFAS), Office of Fiscal Projections (OFP) as soon as they are identified. This would include transactions that may occur up to a year in advance (for example, large non-recurring expenditures or a planned large asset sale). Communication with other Treasury offices does not replace the requirement of separate notification to OFP by the Federal agencies (outlays@treasury.gov). The CTW user access will allow a Federal agency to add, update, delete, search, list, and view reported large dollar notifications. Exhibit 135C provides an example of the CTW format for reporting large transactions. The older large transaction reporting format (Form FMS-187) also remains available as a format for reporting large transactions.

The point of contact for a large transaction should be the individual who is responsible for ensuring that Treasury is informed between submission dates of revisions to dollar amount, transaction date, or any special circumstances related to the transaction. This individual is typically in your program and/or finance office.

Selected examples of large transactions:

- **Department of Agriculture:**
  - Federal Crop Insurance Corporation Fund Premium collections and disbursements
  - Commodity Credit Corporation payments and receipts

- **Department of Defense—Military Programs:**
  - International Restoration payments and receipts
  - Defense Vendor payments
  - Tricare payments
  - Military Active Duty payments

- **Defense Security Cooperation Agency:**
  - Payments to Security Assistance

- **Department of the Interior:**
  - Bureau of Land Management:
    - Oregon and California Grant Lands payments
  - Office of the Secretary:
    - Payments in Lieu of Taxes

- **Department of the Treasury:**
  - Resolution Funding Corporation Collections and Disbursements
  - Comptroller of the Currency:
    - Assessment collections

- **International Assistance Programs:**
  - Agency for International Development:
    - Economic Support Fund payments
    - Economic Assistance loans and repayments
135.5 What are the requirements for investment account reporting?

Departments that administer major investment accounts are required to submit reports of investment account income and outgo in the format of exhibit 135D. These reports enable Treasury to forecast the effect of investment transactions on debt subject to statutory limit. Reports are required for the following investment accounts:

- Department of Health and Human Services:
  - Federal Hospital Insurance Trust Fund
  - Federal Supplementary Medical Insurance Trust Fund

- Department of Housing and Urban Development:
  - FHA-Mutual Mortgage and Cooperative Housing Insurance Fund Liquidating Account

- Department of Labor:
  - Unemployment Trust Fund
  - Pension Benefit Guaranty Corporation Fund

- Department of State:
  - Foreign Service Retirement and Disability Fund

- Department of Transportation:
  - Highway Trust Fund
  - Airport and Airway Trust Fund

- Major Independent Agencies:
  - Environmental Protection Agency:
    - Hazardous Substance Superfund Trust Fund

- Office of Personnel Management:
  - Civil Service Retirement and Disability Fund
  - Federal Employees Life Insurance Fund
  - Federal Employees and Retired Employees Health Benefits Funds
  - Postal Service Retiree Health Benefits Fund

- Social Security Administration:
  - Federal Old-Age and Survivors Insurance Trust Fund
  - Federal Disability Insurance Trust Fund

- Other Defense—Civil Programs:
  - Military Retirement Fund
  - Department of Defense Medicare-Eligible Retiree Health Care Fund

- Other Independent Agencies:
  - Railroad Retirement Board:
    - Rail Industry Pension Fund
    - National Railroad Retirement Investment Trust
    - Railroad Social Security Equivalent Benefit Account
    - Postal Service
  - Deposit Insurance Fund
  - Thrift Savings Plan
135.6 What are the requirements for credit financing account reporting?

All departments and agencies that administer credit financing accounts are required to report estimated and actual monthly net disbursements for all accounts as an attachment to the monthly outlay plan application. These reports:

- Improve Treasury’s cash forecasting by identifying non-cash transactions and ensuring consistent treatment on both sides of the transaction, i.e., the same amount and timing for both budgetary and non-budgetary credit account entries.

- Ensure the integrity of the MTS, the Federal Government’s monthly budget report. Treasury will use financing account reports to review and monitor the agency “Statement of Transactions,” prior to publication of the MTS.

The following agencies also are required to submit detailed financing account reports in the format of exhibit 135E:

- Department of Agriculture
- Department of Education
- Department of Energy
- Department of Housing and Urban Development
- Department of Transportation
- Department of the Treasury
- Department of Veterans Affairs
- Small Business Administration
- International Assistance Programs
- Other Independent Agencies:
  - Export-Import Bank of the United States

*Reporting format.* Show both financing accounts and corresponding program and/or liquidating accounts on the report. Include significant activities as shown in the Budget Appendix Program and Financing schedules in your detailed financing account reports (see section 185.10 for a description of the requirements for program accounts and section 185.11 for a description of the requirements for financing accounts).

Estimate monthly totals for non-budgetary cash transactions such as:

- Loan disbursements
- Collections for loan repayments
- Net proceeds of asset sales

Forecast all non-cash transactions between credit financing accounts and budgetary accounts such as credit program, liquidating, receipt, and Treasury interest accounts.
Specify whether the timing for such transactions is monthly, quarterly, semiannual, or annual. Include the best available estimate of the dollar amount in the month or months during which you expect the transaction to be processed.

*Actual data for credit financing accounts.* As discussed in section 135.9 below, the *Monthly Treasury Statement* is the source of actual data for outlay plans. However, the MTS reports and the “Statement of Transactions” may not provide the activity detail necessary for detailed financing account forecasting. Agency budget and accounting areas are expected to develop internal agency procedures that will produce the detail required for the plans.

*Sales of loans.* In general, cash proceeds from sales of loans are now being credited to non-budgetary financing accounts instead of to budgetary liquidating accounts. Exhibit 135E reflects the financing account presentation for loan sale proceeds. Detailed reporting for individual asset sales is required by Treasury offices under asset sale reporting (section 135.7) below.

*Forecasting methodology.* For financing account reports:

- Non-cash transactions between financing accounts and (1) program or liquidating accounts, or (2) Treasury interest accounts must reflect the best available dollar amount estimate, and timing must be based on actual due dates or past experience with the timing of the payments.

- If actual experience supports the method, you may estimate monthly amounts for some categories, such as loan disbursements and repayments, by pro-rating the estimated fiscal year total, based on recent monthly patterns.

### 135.7 What are the requirements for asset sale reporting?

Asset sales are a category of large transactions with additional reporting requirements due to their impact on financing needs. Departments and agencies that conduct asset sales must submit forecast reports in the format of exhibit 135F for each sale included in the agency report on outlays (exhibit 135B) or financing account report (exhibit 135E). These forecasts must be submitted in addition to the large transactions reporting requirements specified in section 135.4.

Between submissions, the original report for each individual sale is to be updated by the agency and provided to Treasury offices as soon as new estimated and/or actual information is available, until the sale has been completed. Agency and OMB estimates provided for Treasury’s budget, cash, and debt forecasting purposes are considered highly confidential and for internal Treasury use only. If unusual circumstances call for disclosure of additional detail, the estimates are characterized as Treasury Department estimates and not attributed to OMB or the agency.

Departments and agencies that currently must submit detailed asset sale reports are listed below:

- Department of Housing and Urban Development: Federal Housing Administration
- Department of the Interior: Minerals Management Service
- Small Business Administration
- Department of Veterans Affairs
- Other Independent Agencies:
Other departments or agencies should be prepared to provide asset sale reports and timely, on-going updates if asset sale transactions are assumed in official estimates.

**135.8 What are the responsibilities of OMB and the Treasury Department?**

Both OMB and Treasury will review the agency outlay plans for reasonableness in the light of experience, consistency with the President’s policies and objectives, enacted appropriations and other legislation, and other factors. When circumstances warrant, OMB and/or Treasury may require you to make revisions in the outlay plans.

**135.9 When do I submit reports?**

Reports are due to OMB and to Treasury through the automated collection application as shown in the accompanying table. From time to time, it may be necessary for Treasury to request the reports in advance of this timeline in order to meet its internal cash and debt forecasting requirements.

Submit the initial report package to OMB and Treasury Office of the Fiscal Assistant Secretary/Office of Fiscal Projections in the format of exhibits 135B, 135C, 135D, 135E, and 135F, as applicable. Plans are due throughout the year, and require monthly outlay estimates for the current and subsequent budget year as shown below.

The automated collection application (https://mop.max.gov) will load actual data as reported by the MTS for all months available. The published MTS is subject to prior-month revisions for back-dated transactions. Such revisions will affect both the prior month (or months) and the published “Current Fiscal Year to Date” amounts shown in MTS Table 5. **It is imperative that actual data reflect amounts reported by the agency and recorded in the MTS.** Differences between actual data in the application and actual data reported in the MTS should be reconciled with your OMB contact. The actual data should be followed by updated monthly outlay estimates for the balance of the period(s).

1 The system will preload MTS data for actual outlays before the system opens for agency use. Agencies should enter MTS data that become available after the system opens for agency use. When the plans are due before MTS data become available, agencies should enter the best possible estimate of actual outlays.

2 The current year totals should be compared to the latest public estimate, either in the most recent President’s Budget or MSR. Reconcile significant differences between previously reported estimated outlays and revised estimates or actual outlays and explain these changes in the accompanying statements. Additional updated reports may be requested at other times to better accommodate and support Treasury’s quarterly borrowing announcements.

Interest Received by Trust Funds

¹ Provide as a separate entry for monthly outlay amounts for sales of loans to the open market by attaching a spreadsheet to the application. Net cash proceeds of the sale should be reported.

² Commerce also reports spectrum auction receipts and the outlays for Digital TV Transition.

³ Interior also reports the outlays for rents and royalties on Outer Continental Shelf.

⁴ Other Defense—Civil Programs also reports receipts collected by them for employer share, employee retirement and health receipts.

⁵ Executive Office of the President also reports Spectrum Relocation activities.

⁶ OPM also reports receipts collected by them for employer share, employee retirement.

⁷ Postal Service also reports memorandum items for Workers Compensation to the Department of Labor and Payments to OPM Retiree Health Benefits per P.L. 109-435 by attaching a spreadsheet to the application.
Report on Outlays—Initial Report

The automated collection application is on the Internet at https://mop.max.gov. Further instructions can be found on the MAX Federal Community at https://community.max.gov/x/SgCDAw.

Choose fiscal year and agency.

Double-click on the plan name to edit a plan. Edit the plan by entering periodic or cumulative values for the estimate months for the reporting period (in this example, April). The changes will save automatically.

Alternately, Click “Upload Outlay Plans” to upload estimates in spreadsheet format.
Click “Attachments” to add summaries, supporting documents, and exhibits 135 D, E, and F.
