

**EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT AND BUDGET  
WASHINGTON, D.C. 20503**

November 4, 2016

Statement from OMB Director Shaun Donovan:

**Budgetary Impact Analysis for Executive Order Entitled  
“Advancing the Global Health Security Agenda to Achieve a World Safe and Secure from  
Infectious Disease Threats”**

The proposed order would establish an interagency review council to advance the Global Health Security Agenda (GHSA) to be chaired by a member of the National Security Council (NSC) staff with participation from all relevant departments, agencies and offices. The GHSA Interagency Review Council (GHSA Council) would serve as a policy coordination mechanism for the agenda among agencies that play a role in the GHSA. This executive order would have a de minimis impact on costs and revenues to the Federal Government. The benefits of this executive order include enhanced coordination and increased efficiency across the GHSA. Implementing this executive order would have a de minimis impact on mandatory and discretionary obligations and outlays, as well as on revenues to the Federal Government, in the 5-fiscal year period beginning in fiscal year 2017. Departments anticipated to be impacted by this executive order include the U.S. Departments of Health and Human Services, State, Agriculture and Defense.
