NASA	Chief Financial Officer	Contractor Financial Management Reporting System	2700-0003	The number of contracts meeting the reporting criteria have been trending downward over the past three years. NASA Burden reduction is attributed to NASA's use of different types of contracting vehicles, such as fixed price contracts, coupled with a reduction in the number of contracts meeting the criteria for NF 533 reporting. Due to changes in the contract vehicle, (i.e., fixed price contract), the respondents decreased. NASA	Education	NASA STEM Challenges (formerly titled NASA Summer of Innovation)	2700-0150	The NASA STEM Challenges activity is the result of previous OMB guidance to redesign the Summer of Innovation (Sol) pilot as a sustainable model for STEM engagement. The information collection strategy was revised to gather the minimum amount of information necessary to (1) evaluate the program for improvement opportunities, (2) collect outcome data to access the activity model's effectiveness in meeting objectives, and (3) eliminate information collected via parent surveys and teacher focus groups. This data collection significantly reduced the respondent burden by narrowing the focus of the evaluation to 5 <sup>th</sup> through 8 <sup>th</sup> grade students/middle school participants only. Targeted respondents will receive a baseline survey and a follow-up survey.
