

**EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503**

November 16, 2016

Statement from OMB Director Shaun Donovan:

**Budgetary Impact Analysis for Executive Order Entitled
“Establishing a Community Solutions Council”**

The proposed order would establish a Community Solutions Council (Council) to consolidate interagency working groups and enable the Federal Government to better communicate and work with communities and the public. The Council would foster collaboration across agencies, policy councils, and offices to coordinate actions, identify working solutions to share broadly, and develop and implement policy recommendations that put the community-driven locally-led vision at the center of policy making. This executive order would have a de minimis impact on costs and revenues to the Federal Government. The benefits of this executive order include enhanced coordination and increased efficiency across the Federal Government’s investments in communities. Implementing this executive order would have a de minimis impact on mandatory and discretionary obligations and outlays, as well as on revenues to the Federal Government, in the 5-fiscal year period beginning in fiscal year 2017. Departments anticipated to be impacted by this executive order include Justice, Interior, Agriculture, Commerce and Labor.
